**Frontend Core:** HTML | CSS | JavaScript | TypeScript

**Libraries & Frameworks:** React.JS | Next.JS | Tailwind CSS | Redux Toolkit | Material UI | Sass | Styled Components | Spline | Swiper | AOS | Zod | GSAP

**Tools:** Git | GitHub | All AI Tools | VS Code | Thunder Client | Figma (Dev-Mode) | Netlify | Vercel | Framer Motion | Shadcn UI | Postman

## Projects

### Cartopiaa – E-Commerce Application • [↗](#)

Cartopiaa is a modern, responsive e-commerce platform built with React 19 and Vite, delivering a premium user experience with smooth animations and intuitive navigation. It features dynamic product catalogs, detailed product pages, a fully functional cart and checkout system, and an AI-assisted chatbot. The application includes a reusable skeleton loading system and interactive spinners to enhance perceived performance.

### EZY Skills – E-Learning Platform • [↗](#)

Interactive EdTech platform guiding beginners in IT career paths through a decision-tree chatbot and dynamic course catalog. Built with React 19, Vite, Redux Toolkit, SCSS, and Framer Motion. Focused on reusable components, smooth animations, and performance-optimized UI.

### Flame & Bun – Restaurant E-Commerce • [↗](#)

Comprehensive burger restaurant platform with full product catalog, cart, favorites, and user authentication. Built with Next.js 16, React 19, TypeScript, Tailwind CSS, and Redux Toolkit.

### Best Drink – Premium Egyptian Juice Website • [↗](#)

Premium juice brand website with advanced GSAP scroll-triggered animations, dynamic theming, and responsive UI. Built using Next.js 16, React 18, TypeScript, Tailwind CSS, and React Context API for state management.

### Cafe Ramadan – Seasonal Web Experience • [↗](#)

Modern, Ramadan-themed web app with responsive design, GSAP animations, interactive menu, and immersive UI. Developed using Next.js 16, React 19, TypeScript, Tailwind CSS, and GSAP.
